

## Educate the Educators Programme

### Outline:

This programme will support, inform and enable academic staff from a wide range of disciplines to develop the knowledge and skills to embed enterprise into the curriculum. The course will support staff to develop and design enterprising and innovative curricular by introducing them to pedagogies and educational tools that have been implemented in UK universities and across the globe and drawing on best practice guidelines such as the QAA 2018 Guidance on Enterprise and Entrepreneurship and the 2016 European Commission EntreComp Framework. Delegates will leave the programme with a greater knowledge of enterprise, entrepreneurship and innovation and the confidence to implement their learning into their teaching.

The training will include classroom-based workshops and activities, supported by independent reflection and preparatory work each evening. Activities will be interactive in nature, with an emphasis on learning by doing and giving delegates the opportunity to develop their own practice.

### Audience:

University teaching staff from a wide range of disciplines that are looking to embed enterprise into the curriculum.

### Objectives:

1. To enable learners to explore the concepts of enterprise, the entrepreneurial mindset and innovation.
2. To encourage staff to increase their awareness of innovation and to broaden their international outlook.
3. To provide an opportunity for staff to experiment with new tools and approaches to entrepreneurial learning and consider how best to deliver these to have greatest impact.
4. To support staff in embedding and assessing enterprise and entrepreneurship in the curriculum.

### Session 1 – Enterprise Education Landscape

Monday, May 13th 2019 09:30 – 15:30

Introductory session

- Introducing to the key theories in enterprise and entrepreneurship education;
